MIND MAP

for Instant Revision

How to use?

- Read only after going through videos and concept notes
- Only for last minute revision before exam

Motivation
Part - 1

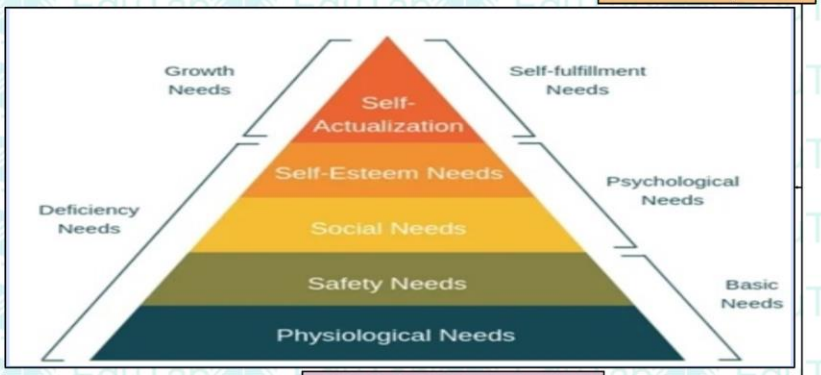
Motivation

- **Concept**
  - **Motivation Process**

  - **Types**
    - **Positive Vs Negative**
      - Positive- impelling one to reach a certain goal
      - Negative- Driving one away from an unwanted situation
    - **Basic vs Learned**
      - Basic - Basic or primary motives are unlearned
      - Learned- learned or secondary motives include achievement, power, recognition, love.
    - **Extrinsic Vs Intrinsic**
      - Extrinsic- The motivation comes from outside
      - Intrinsic - It comes from inside the individual and is not done for external rewards
  - **Importance**
    - High Performance Level
    - Low Employee Turnover and Absenteeism
    - Acceptance of Organizational changes
  - **Systems View of Motivation**
    - **Individual** → Every Individual has different needs
    - **Organization** → Organization uses Legal Compliance/ Instrumental / Internalized motivation
    - **Job Characterstics** → Set of implementing principles for enriching jobs in organizational settings
    - **Exogenous Variables** → A bad relationship with wife can impact motivation at work
  - **Job Satisfaction**
    - Job satisfaction is pleasurable state or feeling in an individual with respect to his work
    - **Three theories**
      - Herzberg's Motivation Hygiene theory → Presence of satisfiers such as recognition.
      - Need-Fulfillment theory → A person is satisfied if he gets what he wants
      - Social Reference group theory → people take the standards of significant others as a basis for making comparision
- **Motivation Theories**
  - Content theories
  - Process theories

Content Theories

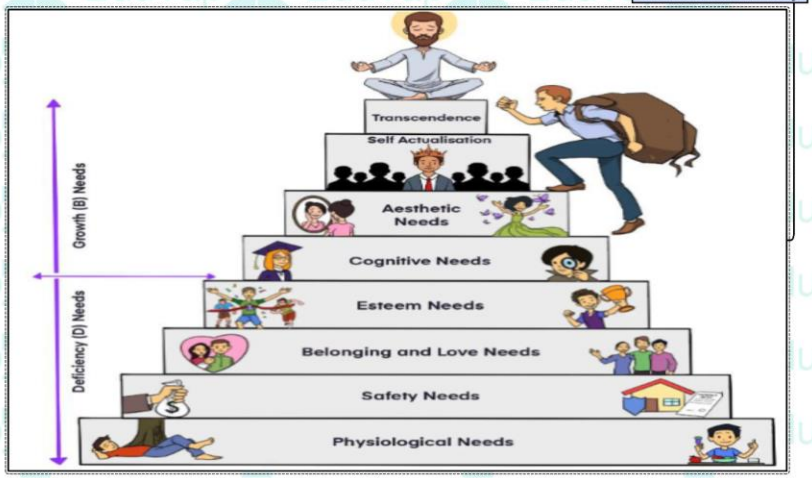
Maslow's Hierachy of Needs



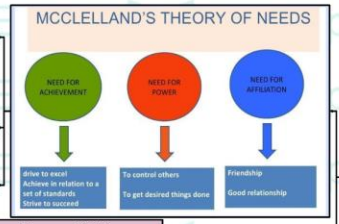
Implication at Workplace
- To ensure their people's deficiency needs are met
- Create environment so that employees can develop their full potential

Criticism
- Wrong Order of Needs
- Position and value of sex on the pyramid
- Wrong to assume that only one motive is present at any point of time
- Primary application to lower-level workers

Extended Maslow theory



McClelland Theory of Need



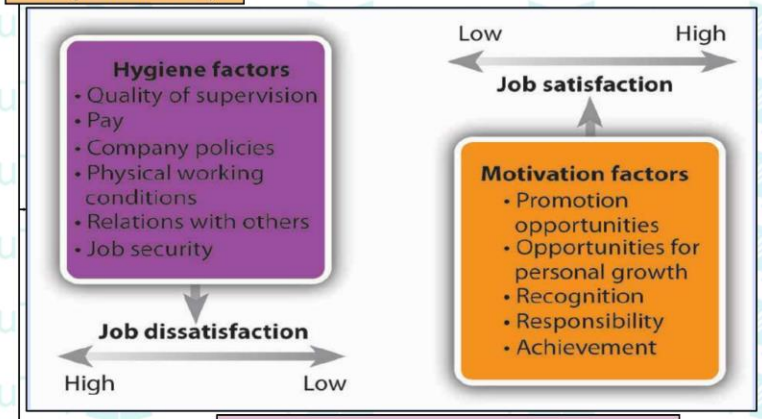
Need for Achievement (n-ACH)
- like to receive feedback
- Do not like having external events or other people interfere

Need for Power (n-POW)
- Drive to control and influence others
- place a high value on discipline
- group goals can become zero-sum in nature

Need for Affiliation
- Perform best in a cooperative environment.

Implication at Workplace
- Effective managers show high on achievement and power and low on affiliation.
- Strong n-affil 'affiliation-motivation' undermines a manager's objectivity and affects their Decision making

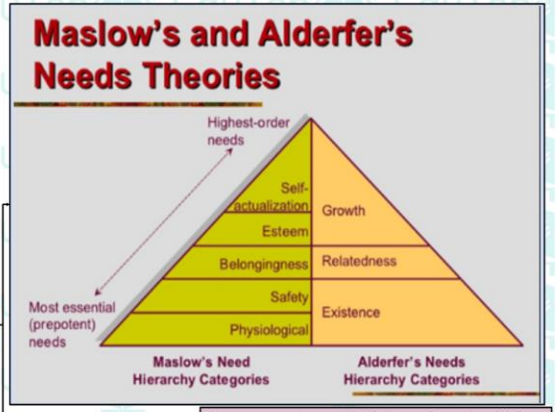
Herzberg Two Factor Theory



Implication at Workplace
- Acceptability of the hygiene factors by Managers to avoid employee dissatisfaction
- Theory stresses upon job-enrichment
- Concentration on the motivational factors can strengthen work-quality.

Criticism
- Drew conclusions from a limited experiment
- Too much importance on job enrichment but did not attach much importance to pay, status and interpersonal relationships
- Over-simplification of the true relationship between motivation and dissatisfaction.
- Differences between satisfiers and motivators cannot be completely accepted

Alderfer Hierarchy of Motivational Need



Implication at Workplace
- Managers must recognize their employees' multiple simultaneous needs.
- The frustration-regression principle impacts workplace motivation

Theory Z by William Ouchi: characteristics

1. Collective decision-making
2. Long-term employment
3. Job rotation
4. Slow promotion
5. Focus on training
6. Care for personal circumstances
7. Formalised measures
8. Individual responsibility

Criticism

- Complete security of job may create lethargy among many employees
- Participation of employees in the decision-making process is very difficult
- Theory may not be applicable in different cultures as based on Japanese Culture.

Theory Z — **Content Theories - 2**

McGregor's Theory X and Theory Y

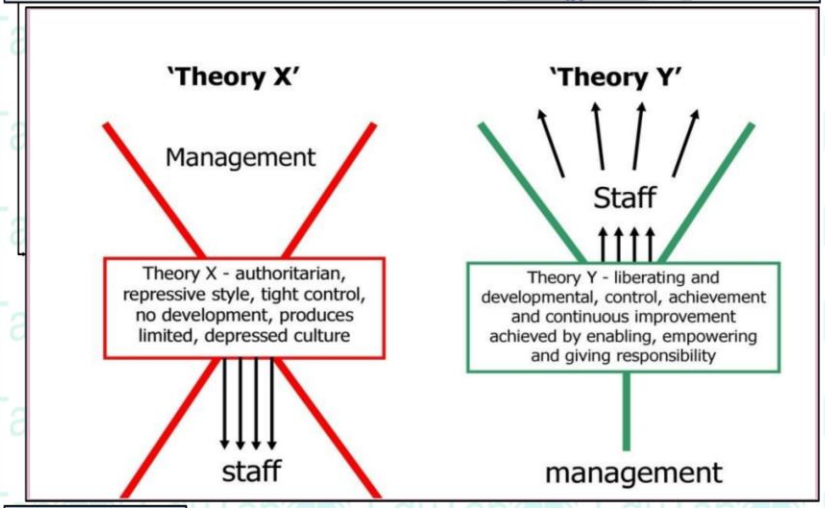
Theory X and Theory Y (Douglas McGregor)

Theory X

The assumption that employees dislike work, are lazy, dislike responsibility, and must be coerced to perform.

Theory Y

The assumption that employees like work, are creative, seek responsibility, and can exercise self-direction.



Implication at Workplace

- Theory Y gives employees freedom and encourages self-control and participation in decision making. Employees are able to take higher responsibility and if accurately applied, such an atmosphere would end result in a boundless level of motivation
- Theory X encourages use of tight control and supervision. It implies that employees are reluctant to organizational changes. Thus, it does not encourage innovation.

Instinctive Theory of Motivation

- Theory views biological or genetic programming as the cause of motivation.
- Learning/conditioning doesn't effect motivation

Fodder Material

McCllelands' theory of needs

- **Need for Achievement**
  - Baba Kalyani, a high achiever, has grown Bharat Forge, from a turnover of 3 crores to 16,000 crores.
- **Need for Affiliation**
  - Ratan Tata undertook a journey from his house in Mumbai all the way to Friends Society in Pune just to meet a former employee which shows that he also has high need for affiliation.
- **Need for Power**
  - CEO of Tesla and SpaceX thinks and acts on a larger, more cosmic scale than we are accustomed to from entrepreneurs. He has plans to colonize Mars and thinks AI may turn humans into its pets. But beyond the hype, his enormous net worth, and Twitter presence clearly shows his need for Power.

Herzberg's two factor theory

- TATA Motors provides its employees with hygiene factors like particularly good salary and perks, very good work environment and freedom to employees.
- TATA motors provide its employees with adequate motivational factors. These factors include Learning Advisory Council, Fast Track Selection etc., to providing fast track growth opportunities for the development and growth of the employees .

Adam's equity theory

- Employees recruited in State Bank of India not only get higher salary but also better allowances when compared with the other public sector banks like Bank of Baroda and Punjab National Bank

Maslow's need theory

- **PHYSIOLOGICAL**
  - Google provides its employees bicycles, electric cars, health environment at office etc to promote health and wellbeing of its employees.
- **SAFETY**
  - Kellogg's values the safety of all employees. The company is committed to providing a safe and healthy work environment to prevent accidents.
- **BELONGING**
  - HBO's Corporate Social Responsibility team unites HBO employees, talent and non-profit partners to make a difference on social issues, connected to their industry, and their communities. This makes employees feel that the belong to a cause greater than themselves
- **ESTEEM**
  - Southwest gives employees "permission" to go the extra mile to make customers happy, empowering them to do whatever is necessary to meet that vision. This makes employee feel that they are asset for the company and enhances their self-esteem
- **SELF- ACTUALIZATION**
  - Google promotes employees to spend 20% of their time pursuing innovative ideas about which they are passionate which not only result in innovate new products but also helps people to realize their full potential.

Alderfer's' ERG theory

- **Existence**
  - Google provides its employees bicycles, electric cars, health environment at office etc to promote health and wellbeing of its employees.
- **Relatedness**
  - The company fulfils relatedness needs by providing various levels of communication, valuing employee feedback, and ensuring that employees are facilitated to build satisfying interpersonal relationships with other employees and with senior management.
- **Growth**
  - Google provides various opportunities for personal growth and development to enable its employees to accomplish the growth needs level.

Vroom's expectancy theory

- **Expectancy**
  - Google has introduced the Objective Key Result (OKR) formula for goal setting by employees
- **Instrumentality**
  - Google offers a generous rewards and recognition program based on the achievement of personal goals set by each employee
- **Valence**
  - Google also understands the motivational effects of differentiating rewards.
